WHO WE ARE

Ganibeans Nigeria Limited

Ganibeans is a Lagos-based IT consulting company helping Nigerian businesses buy the right technology, set it up properly and keep it working. We combine hands-on infrastructure experience with software development, so we can handle everything from cabling a new office to building the app your customers use.

WHAT WE DO

Websites

Business websites with domain, hosting, email and SEO basics.

Applications

Custom web and mobile apps, internal tools, dashboards and automation.

Networks

Cabling, LAN/Wi-Fi, routers, switches, firewalls, VLANs and VPNs.

Devices

Business laptops, desktops, printers and accessories, set up for staff.

Infrastructure

Servers, storage, switches, access points and racks from trusted brands.

IT support

Helpdesk, maintenance, monitoring and managed service contracts.

Security & CCTV

Firewalls, endpoint protection, reviews, CCTV and access control.

Cloud & Microsoft 365

Business email, Microsoft 365, Google Workspace, migration and backup.

Power for IT

UPS, inverter and solar solutions sized for IT equipment.

Why Ganibeans

- **End-to-end:** advise, procure, install and support
- **Right-sized:** matched to your budget and growth
- **Local reality:** designed around power and connectivity
- **Documented:** every system handed over with documentation

Who we work with

- Small and growing businesses
- Established organisations and multi-site companies
- Offices setting up, moving or upgrading
- Teams that want one dependable IT partner

HOW WE WORK

A clear path from request to running

01

Assess

We learn your goals and review your current setup.

02

Propose

Clear scope, timeline and itemised quote.

03

Deliver

We procure, build, install and test.

04

Support

Handover, training and ongoing support.

WAYS TO ENGAGE US

Free IT assessment

A review of your network, devices, security, backups and power, with a prioritised action plan. Book at ganibeans.com/book.html

Project-based work

Websites, applications, office network installations, CCTV and power projects, delivered to an agreed scope and price.

Procurement

Laptops, servers, network and power equipment sourced to spec, delivered and set up. Request at ganibeans.com/procurement.html

Managed support

Ongoing helpdesk, maintenance and monitoring under a support agreement, with priority-based ticketing.
